PROFESSIONAL SUMMARY

Motivated Software Engineer and fresh IT graduate (Cum Laude) with a strong foundation in full-stack development, object-oriented programming, and database management. Experienced in developing, optimizing, and debugging applications using C#, Java, SQL, and web technologies. Passionate about continuous learning and excited to contribute technical expertise, problem-solving skills, and collaboration to deliver high-quality software solutions.

WORK EXPERIENCE

On-the-Job Training Intern (Information Technology)

Local Government Unit – San Nicolas, Batangas | Jan 2025 – May 2025

- Enhanced HRIS system features, improving page performance and reducing error reports.
- Performed testing, debugging, and documentation to strengthen code reliability.
- Managed data entry and validation, ensuring 100% accuracy across employee records.
- Completed Cisco's Data Analytics Essentials with practical use of SQL and Tableau for reporting.

Capstone Project – Software Development (Unity, C#)

Group Leader & Developer | STI College Balayan | Feb 2024 – Nov 2024

- Led a 4-member team to design and develop an interactive educational game in Unity & C#.
- Applied Software Development Life Cycle (SDLC) principles to ensure structured development and timely delivery.
- Design game mechanics, user interface, and interactive features to enhance user experience.
- Implemented real-time leaderboard via Firebase, enabling secure data storage and retrieval.
- Improved game performance by debugging and optimizing code, boosting smoothness during testing.
